

EXPERIENCED AUTOMATION SOLUTIONS PROVIDER

Wauseon Machine is a premier provider of robotics and custom automation solutions across North America. By merging our extensive knowledge and engineering skills with cutting-edge equipment and technology, we can create tailored automation solutions or execute build to print projects that meet the unique requirements of our clients.

WHY US?

Over 40 Years of Experience

Established in 1983 we have the experience to aid you in any project. With over 450 successful robotic integrations, we are your trusted solutions provider.

Total Solutions Provider

We have extensive history with various applications (see back page). Pairing this with our expertise in vision, factory automation, force sensing, line tracking, collaborative robots and custom solutions we are your go-to systems integrator.

Vertically Integrated

Systems designed, fabricated, built and programmed in-house.

Total Life-Cycle Support

Our field service team is dedicated to providing you with support. We offer preventative and general maintenance, repairs, retrofits, troubleshooting, warranties and spare part assistance.

Quality-Focused

Through our dedicated APP Phase process, we are committed to delivering repeatable and consistent results. Additionally, we employ TUV certified engineers and technicians to ensure we uphold industry-leading quality standards.

World-Class Customer Service

Proudly providing best-in-class customer service, including connecting customers directly with in-house experts.
